Reasons for Allowance

The following is an examiner's statement of reasons for allowance:

The prior art does not disclose or suggest a wrapping paper with a multilayer pattern applied to the paper, the pattern comprising calcium carbonate and ethyl cellulose with a plasticizer, a wetting agent, and/or an optical brightener. Plasticizers, wetting agents and optical brighteners are used separately in other portions of the cigarette, such as in the filter, base wrapping paper or in the smokable filler, but not in an applied pattern to the wrapper. Also the prior art discloses 3 to 4 layer patterns comprising calcium carbonate in an amount much lower than the film-forming binder (Peterson et al, 5878754).
